CIRCULAR

Circular No. SRRCET/Mechanical/ICT/2017-2018/01

Date: 07.02.2018

We are happily informed to all the faculties and II,III , IV year students, we have planned to organize the skill development programme in the title of **“INFORMATION AND COMMUNICATION TECHNOLOGY”** from 19.02.2018 to 23.02.2018 (5 days) venue at Seminar Hall, SRRCET. So kindly all the faculties and students are instructed to attend the programme without fail and make it success.

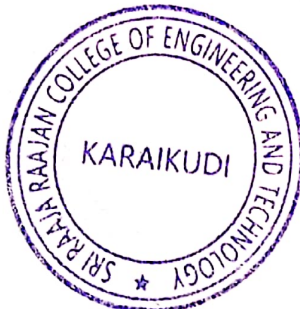

Attendance is Mandatory.

All the Best. Thank you.

INFORMATION AND COMMUNICATION TECHNOLOGY
SKILL DEVELOPMENT PROGRAMME

Academic year 2017-2018

Course Type: Skill based, value-added and non-credit course

Duration: 5 days (FEBRUARY 19th to 23rd, 2018)

Course Content:

Fundamentals of Internet:

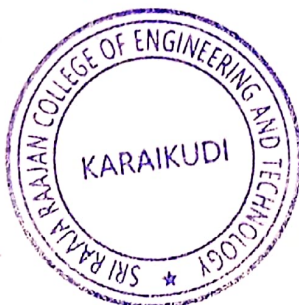

- What is Internet?
- Internet applications,
- Internet Addressing
- Entering a Web Site Address,
- URL-Components of URL,
- Searching the Internet,

Browser:

- Types of Browsers
- Introduction to Social Networking:
- Twitter, LinkedIn, Facebook, Skype, yahoo, YouTube, WhatsApp

E-mail:

- Definition of E-mail
- Advantages and Disadvantages
- User Ids, Passwords,
- Email Addresses, Domain Names, Mailers,
- Message Components, Message Composition, Mail Management.

Overview of Internet security:

- E-mail threats and secure E-mail,
- Viruses and antivirus software,
- Firewalls, Cryptography,
- Digital signatures,
- Copyright issues

G-Suite:

- Google drive,
- Google documents,
- Google spread sheets,
- Google Slides and Google forms.

REPORT OF INFORMATION AND COMMUNICATION TECHNOLOGY
SKILL DEVELOPMENT PROGRAMME

2017-2018

Information and communications technology (ICT) skills refer to one's ability to converse with people through various technologies. Similar to information technology (IT), ICT refers to technology use for regular, everyday tasks: sending an email, making a video call, searching the internet, using a tablet or mobile phone, and more. ICT skills could also include the ability to use older communication technologies such as telephones, radios, and televisions. Almost every job requires some ICT skills, and many require hybrid skills, a skill set that is a mix of technical and non-technical skills.

Types of ICT Skills

Email Management and Setup

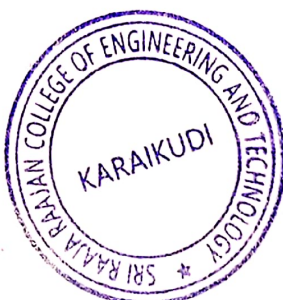

Being able to effectively and successfully communicate via email is critical to any job. You will need to send emails to colleagues, employers, clients, vendors, and so on. Companies expect their employees to write professional and well-written emails, as well as respond promptly to messages received in their inboxes. Depending on the level of expertise required by your employer, you may also need to be able to manage settings or set up email accounts on various work devices.

- MS Outlook
- Gmail and G-Suite
- Send in Blue Email
- Groove

Online Research

Almost every job requires at least some online research. Whether you are looking up new lesson plans in a subject or checking out the latest news on your company's competitor, you need to be able to sift through all the information online to find what you need. This involves basic online information management skills.

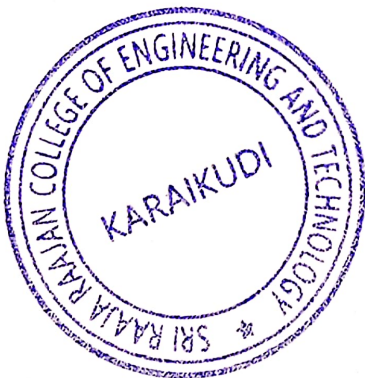

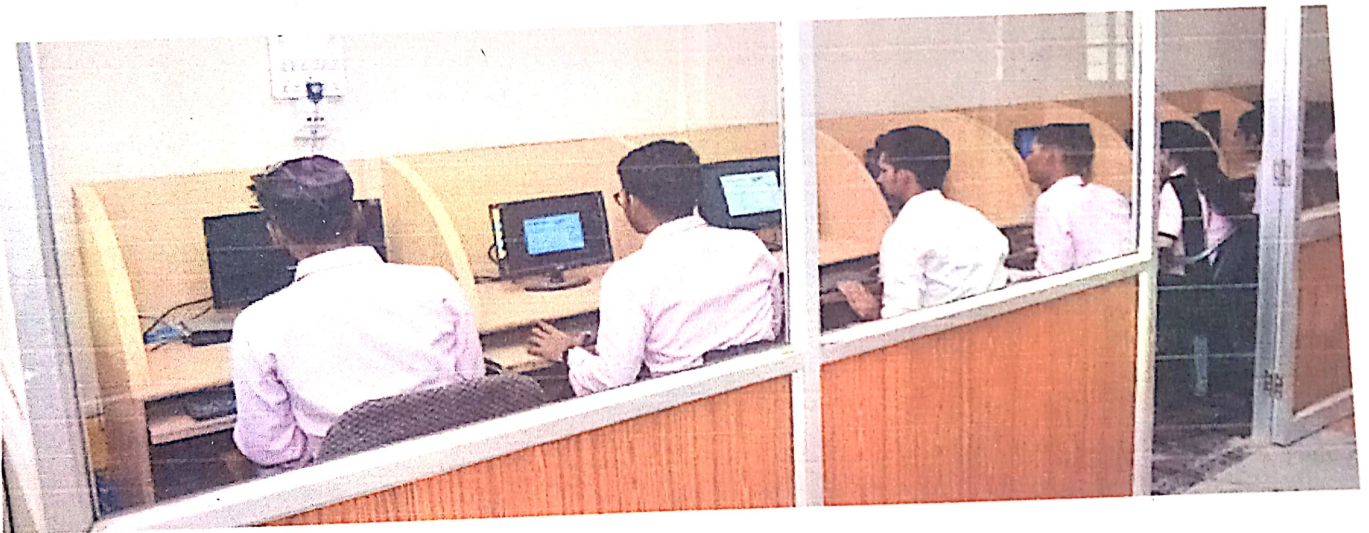

- Search Engine Research
- Checking Sources
- Crediting Sources
- FAQs

Social Media Management

Some jobs require you to use social media. For example, many people working in marketing tend to manage or update a company's social media presence. Even if this is not a critical part of your job, employers increasingly look for employees with basic social media literacy. The more you know about the benefits of and limits to social media, the more you can begin to use that media in valuable ways at work.

REPORT OF INFORMATION AND COMMUNICATION TECHNOLOGY
SKILL DEVELOPMENT PROGRAMME

On the 03 to 07th December 2018 Department of Mechanical Engineering of SRR CET organised an ICT computing skill development programme at seminar hall. The programme was attended by all II-, III- and IV-year students (254) and 7 faculties of our department. About 261 participants including facilitators joined this five days programme.

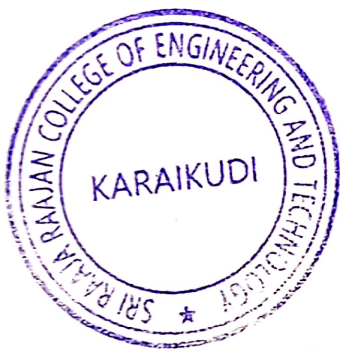

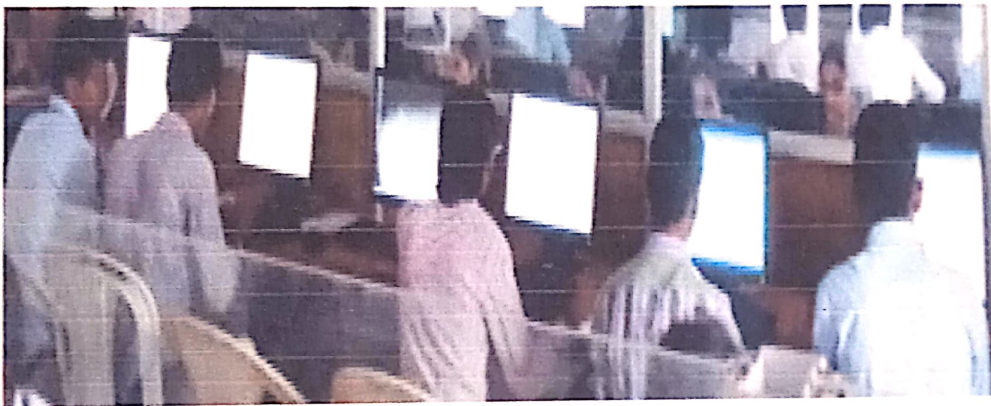

The full form of ICT is Information and Communication Technology. Information and communication technology has a significant impact on how well students learn. It greatly expands educational opportunities while also adding value to education. We understood the significance of ICT in education, we discussed the advantages of ICT in education.

- Teachers can make use of different ICT tools like computers, laptops etc, to make conceptual comprehension easier for students.
- They can effectively present ideas to the students using ICT and leave a long-lasting impact on them.
- For the learning process to be effective, it has to be a two-way process. ICT makes this possible.
- Even in online learning scenarios, there are different tools that different online software provide for the students to actively participate in the learning process.
- It provides students with the opportunity to exhibit their thoughts and opinions in the most effective manner.
- ICT tools provide students with the opportunity to speak up their minds through discussion forums.

- Through information and communication technology, students and researchers have access to a lot of data.

The intervention of information and communication technology is redefining the way students learn. It is making the process of learning more efficient and effective for students and teachers. ICT tools in education make it easier for teachers to use the best strategies to bring out the best in their students. ICT in education sector is beneficial for the students, in addition to this, it is making it possible for schools to impart education in the finest way. Moreover, the technology enables them to manage all the management and administration functions in a seamless manner. Hence, there is no doubt that it is a boon to the education industry

CIRCULAR

Circular No. SRRCET/Mechanical/ICT/2019-2020/03

Date: 29.12.2019

We are happily informed to all the faculties and II,III , IV year students, we have planned to organize the skill development programme in the title of **“INFORMATION AND COMMUNICATION TECHNOLOGY”** from 06.01.2020 to 10.01.2020 (5 days) venue at Seminar Hall, SRRCET. So kindly all the faculties and students are instructed to attend the programme without fail and make it success.

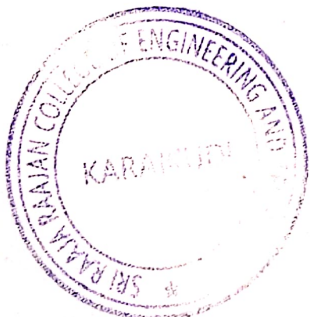

Attendance is Mandatory.

All the Best. Thank you.

SKILL DEVELOPMENT PROGRAMME

Academic year 2019-2020

Course Type: Skill based, value-added and non-credit course

Duration: 5 days (January 06th to 10th, 2020)

Course Content:

Fundamentals of Internet:

- What is Internet?
- Internet applications,
- Internet Addressing
- Entering a Web Site Address,
- URL-Components of URL,
- Searching the Internet

Browser:

- Types of Browsers
- Introduction to Social Networking:
- Twitter, LinkedIn, Facebook, Skype, yahoo, YouTube, WhatsApp

E-mail:

- Definition of E-mail
- Advantages and Disadvantages
- User Ids, Passwords,
- Email Addresses, Domain Names, Mailers,
- Message Components, Message Composition, Mail Management.

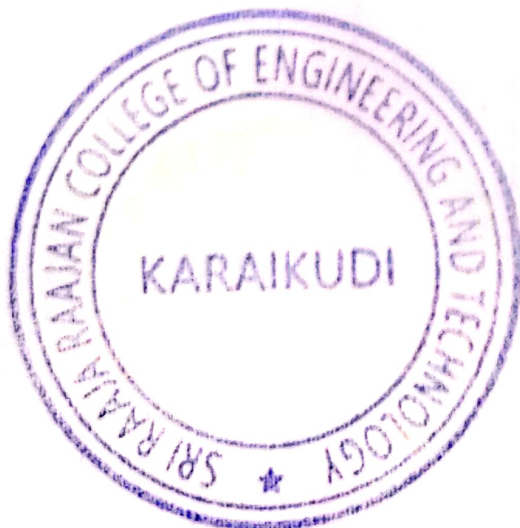

Overview of Internet security:

- E-mail threats and secure E-mail,
- Viruses and antivirus software,
- Firewalls, Cryptography,
- Digital signatures,
- Copyright issues

G-Suite:

- Google drive,
- Google documents,
- Google spread sheets,
- Google Slides and Google forms.

REPORT OF INFORMATION AND COMMUNICATION TECHNOLOGY
SKILL DEVELOPMENT PROGRAMME

Information and communications technology (ICT) skills refer to one's ability to converse with people through various technologies. Similar to information technology (IT), ICT refers to technology use for regular, everyday tasks: sending an email, making a video call, searching the internet, using a tablet or mobile phone, and more. ICT skills could also include the ability to use older communication technologies such as telephones, radios, and televisions. Almost every job requires some ICT skills, and many require hybrid skills, a skill set that is a mix of technical and non-technical skills.

Types of ICT Skills

Email Management and Setup

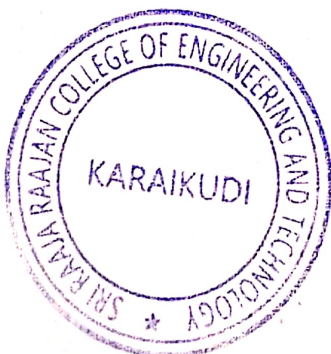

Being able to effectively and successfully communicate via email is critical to any job. You will need to send emails to colleagues, employers, clients, vendors, and so on. Companies expect their employees to write professional and well-written emails, as well as respond promptly to messages received in their inboxes. Depending on the level of expertise required by your employer, you may also need to be able to manage settings or set up email accounts on various work devices.

- MS Outlook
- Gmail and G-Suite
- Send in Blue Email
- Groove

Online Research

Almost every job requires at least some online research. Whether you are looking up new lesson plans in a subject or checking out the latest news on your company's competitor, you need to be able to sift through all the information online to find what you need. This involves basic online information management skills.

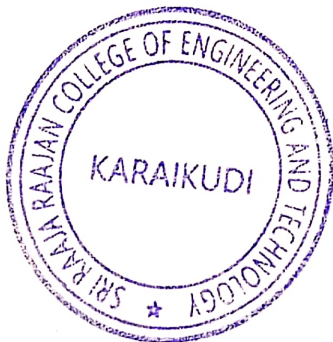

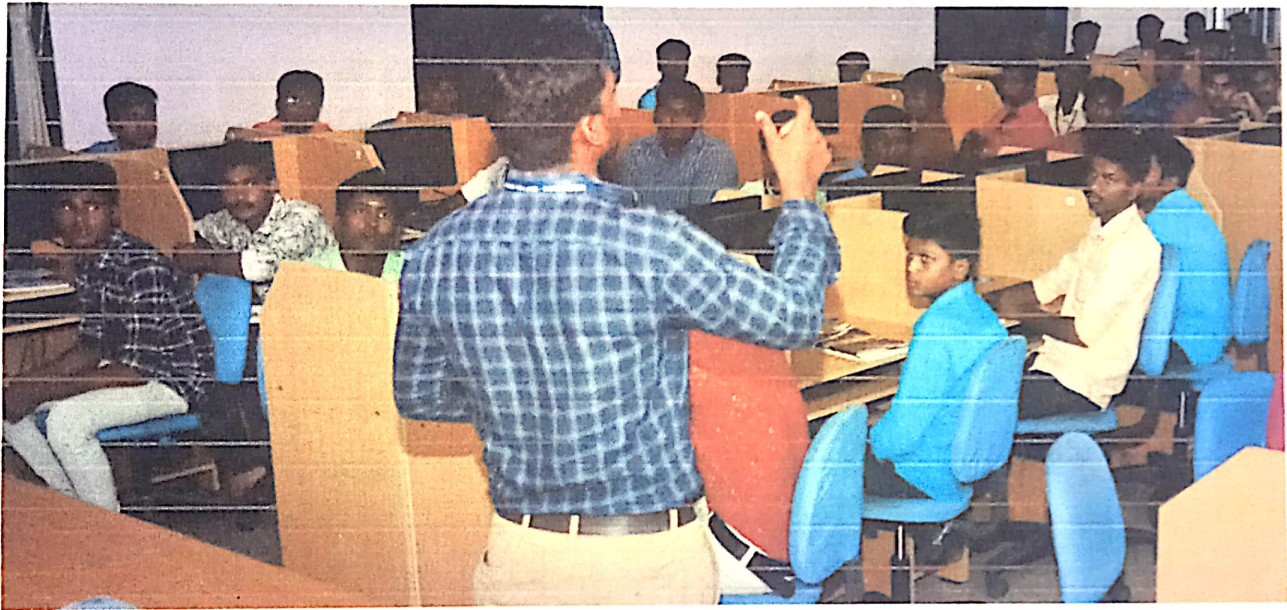

- Search Engine Research
- Checking Sources
- Crediting Sources
- FAQs

Social Media Management

Some jobs require you to use social media. For example, many people working in marketing tend to manage or update a company's social media presence. Even if this is not a critical part of your job, employers increasingly look for employees with basic social media literacy. The more you know about the benefits of and limits to social media, the more you can begin to use that media in valuable ways at work.

Circular No. SRRCET/Mechanical/ICT/2021-2022/04

Date: 28.01.2022

We are happily informed to all the faculties and II,III , IV year students, we have planned to organize the skill development programme in the title of **"INFORMATION AND COMMUNICATION TECHNOLOGY"** from 07.02.2022 to 12.02.2022 (5 days) venue at Seminar Hall, SRRCET. So kindly all the faculties and students are instructed to attend the programme without fail and make it success.

Attendance is Mandatory.

All the Best. Thank you.

ICT COMPUTING SKILL DEVELOPMENT PROGRAMME

Course Type: Skill based, value-added and non-credit course

Duration: 5 days (February 7th to 12th, 2022)

Course Content:

- Graphic designing
- User interface and user experience design (UI & UX design)
- DTP
- 2D and 3D animation
- Web application development
- Software and Hardware system administration
- Graphic designing and DTP
- Web development
- Audio video production
- Data analysis and data visualization
- Data analytics
- Mobile application development

2021-2022

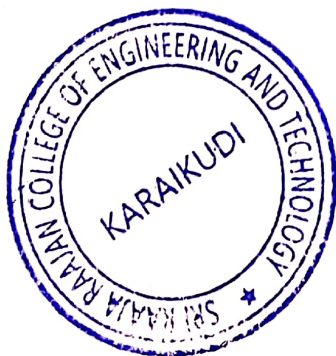

REPORT OF ICT COMPUTING SKILL DEVELOPMENT PROGRAMME

On the 07th- 12th, February 2022 Department of Mechanical Engineering of SRR CET organised an ICT computing skill development programme at seminar hall. The programme was attended by all II-, III- and IV-year students (138) and 5 faculties of our department. About 143 participants include facilitators joined this five days programme.

The full form of ICT is Information and Communication Technology. Information and communication technology has a significant impact on how well students learn. It greatly expands educational opportunities while also adding value to education. We understood the significance the ICT in education, we discussed at the advantages of ICT in education.

- Teachers can make use of different ICT tools like computers, laptops etc, to make conceptual comprehension easier for students.
- They can effectively present ideas to the students using ICT and leave a long-lasting impact on them.
- For the learning process to be effective, it has to be a two-way process. ICT makes this possible.
- Even in online learning scenarios, there are different tools that different online software provide for the students to actively participate in the learning process.
- It provides students with the opportunity to exhibit their thoughts and opinions in the most effective manner.
- ICT tools provide students with the opportunity to speak up their minds through discussion forums.
- Through information and communication technology, students and researchers have access to a lot of data.

The intervention of information and communication technology is redefining the way students learn. It is making the process of learning more efficient and effective for students and teachers. ICT tools in education make it easier for teachers to use the best strategies to bring out the best in their students. ICT in education sector is beneficial for the students, in addition to this, it is making it possible for schools to impart education in the finest way. Moreover, the technology enables them to manage all the management and administration functions in a seamless manner. Hence, there is no doubt that it is a boon to the education industry
