INFORMATION BROCHURE

HISTORY OF THE INSTITUTION

Sri Raaja Raajan College of Engineering and Technology was established in 2010 by Sri Muthumari Charitable and Educational Trust with a view to create an Engineering Degree Institute to fulfil the long felt public need of an Institute of Excellence in Karaikudi. The trust is located at Karaikudi. Sri Muthumari Charitable and Educational Trust are assisted by the Governing and Advisory Council in matters of Policy, Planning and Development of the Institutions. The Statue of Saraswathi, the "Goddess of learning" is a magnificent addition to the serene landscape in front of the college building, standing with stunning architecture. The building is enclosed by tranquil atmosphere, necessary to promoting discipline education and character building.

Our institutions value greatly an unaffected spirit of exploration, rationality and enterprise - appreciation of intellectual excellence and creativity.

MOTTO

LIVE TO LEARN, LEARN TO SERVE

VISION

To function as a centre of excellence with world-class instructional and infrastructural facilities to realize the vision of producing highly disciplined, talented students to serve humanity in unparalleled style.

MISSION

To produce exceptionally competent professionals through personalized teaching and graduates who are ethically upright and educationally bright to render service of global standards.

COURSES OFFERED

UNDER GRADUATE PROGRAMME

B.E.,

- ✓ Civil Engineering
- ✓ Computer science Engineering
- ✓ Electronics and Communication Engineering
- ✓ Electrical and Electronics Engineering
- ✓ Mechanical Engineering

B.TECH

- ✓ Agricultural Engineering
- ✓ Artificial Intelligence and Data Science.
- ✓ Information Technology

POST GRADUATE PROGRAMME

M.E.,

- * Computer Science Engineering
- * Communication Systems
- * Manufacturing Engineering

MBA

UNIQUE FEATURES

- Very reasonable fee structure.
- Education is supplemented and facilitated with the help of computers.
- A very good library with huge collections of books and a digital library with a collection of e-books.
- A full-fledged computer lab to keep the students in pace with contemporary advancements with online test preparation.

Department of Civil Engineering

The Department of Civil Engineering is a professional engineering discipline that deals with the design, construction, and maintenance of the physical and naturally built environment, including public works such as roads, bridges, canals, dams, airports, sewerage systems, pipelines, structural components of buildings, and railways.

LAB FACILITIES

- Surveying laboratory
- Strength of materials laboratory
- CaDD laboratory
- Soil Mechanics laboratory
- Concrete and Highway laboratory
- Environmental Engineering laboratory
- Fluid Mechanics
- Survey Camp

Department of Computer Science Engineering

The major goal of Department of Computer Science and Engineering is to produce programmers, data Scientist, Entrepreneurs competent and resourceful young engineers who can perform well in a wide variety of job profiles.

LAB FACILITIES

- ❖ Python programming laboratory
- ❖ C programming laboratory
- ❖ Object-oriented programming laboratory
- ❖ Database management system laboratory
- ❖ Operating system laboratory
- ❖ Networks laboratory
- ❖ Object-oriented analysis and design laboratory
- ❖ Internet programming laboratory
- ❖ Mobile application development laboratory
- ❖ Security laboratory
- ❖ Cloud computing laboratory

Department of Electronics and Communication Engineering

The Department of Electronics and Communication Engineering is a well equipped department with adequate space, excellent Classrooms and Seminar Hall equipped with LCD projector, and state-of-the-art laboratories.

LAB FACILITIES

- ❖ Digital Signal Processing laboratory
- ❖ Embedded laboratory
- ❖ Circuit Design and Simulation laboratory
- ❖ Analog and Digital Circuits laboratory
- ❖ Communication System laboratory
- ❖ Linear Integrated Circuits laboratory
- ❖ VLSI laboratory
- ❖ Microprocessors and Microcontrollers laboratory

Department of Electrical and Electronics Engineering

Electrical and Electronics Engineering is a field of engineering that generally deals with the study and application of electricity, electrical machines, electronics, and electromagnetism.

LAB FACILITIES

- ❖ Electrical Machines laboratory
- ❖ Electric Circuits laboratory
- ❖ Control and Instrumentation laboratory
- ❖ Linear and Digital Integrated Circuits laboratory
- ❖ Power System Simulations laboratory
- ❖ Power Electronics and Drives laboratory
- ❖ Engineering Practices laboratory
- ❖ Microprocessor and Microcontroller laboratory
- ❖ Electronics laboratory

Department of Mechanical Engineering

The goal of the Mechanical Engineering curriculum is to create a lenient undergraduate educational experience in design, modelling, management, engineering science, humanities and fine arts.

LAB FACILITIES

- ❖ Basic Workshop laboratory
- ❖ Manufacturing Technology laboratory
- ❖ Thermal Engineering laboratory
- ❖ Heat Transfer laboratory
- ❖ CAD/CAM laboratory
- ❖ Metrology laboratory
- ❖ Kinematics and Dynamics laboratory
- ❖ CNC laboratory
- ❖ Mechatronics laboratory
- ❖ Machine Drawing laboratory

Department of Agricultural Engineering

To train and produce an Agricultural Engineer with a wealth of knowledge in disciplines like agricultural machinery and automated machine systems, soil conservation, irrigation and drainage, crop nutrient and fertilization, post-harvest handling and value addition, farm animals and housing etc. for the efficient production and processing of food, feed, fibre and fuels.

Department of Artificial Intelligence and Data Sciences

The department of AI&DS was established in the year 2003. Currently the course has been approved with an additional intake of 60 students. Students created Object detection by Artificial Intelligence program to detect objects in the bus, train and airport. AIDS curriculum is designed to enable the students to build intelligent machines, software and application. It works with a cutting-edge combination of machine learning, deep learning, data analytics and visualization technologies.
